

DIGIPETTE Junior fixed volume micropipettes

Code MGD095 - MGD101

Compact and light pipettes specially designed for small laboratories and school laboratories, with excellent performance and ergonomics.

The Junior line is composed of 7 references, covering the volume range from 5 μ L to 200 μ L.

Features:

- Compact working size of 130mm ensures fatigue free operation
- Two step plunger allows for "reverse pipetting" technique
- Calibrated as per EN ISO 8655-6 standard
- Can be sterilised in autoclave
- Stainless steel piston for reliable performance and years of durability
- Coloured push buttons for easy identification of volumes

Code	Nominal volume (μ L)	Test volume (μ L)	Inaccuracy (\pm)%	Imprecision (\pm)%
MGD095	5	5	1,3	1,2
MGD096	10	10	0,8	0,8
MGD097	20	20	0,6	0,5
MGD098	25	25	0,5	0,3
MGD099	50	50	0,5	0,3
MGD100	100	100	0,5	0,3
MGD101	200	200	0,4	0,2
