

- 1 | This pocket meter is intended for use in the Water Treatment Industry, in the Drinking Water Industry, at home, in Field Operations, as a test tool to evaluate the quality of drinking water
- 2 | Measured values: ppm and us/cm
- 3 | HOLD lock key
- 4 | Measures water and ambient temperature
- 5 | Alarm light when the drinking water TDS value is low:
 - Green colour if the TDS value is ≤ 40 ppm (80 us/cm)
 - Red colour if TDS value is ≥ 40 ppm (80 us/cm)
- 6 | Includes: storage bag and manual
- 7 | The product leaves the factory calibrated, the user can readjust according to their own standards

Pen type TDS/EC/temperature meter

Code	KGB013
Weight	50g
Material	ABS
Voltage	3V
Battery	1 x CR2032 button cell battery
Measuring range	
TDS	0-5000 ppm (accuracy 1 ppm)
EC	0-9999 us/cm (accuracy 1 us/cm)
Temperature	32.0-212°F ; 0-100°C (accuracy +/- 0.1°)
Meter dimensions	16.2 x 3 x 1.6 cm
